## Dear Mr. Hagan

The following is a proposal if I'm accepted into Art Exploration.

## Semester 1: People

For the first semester I would like to do a range of mini projects surrounding people and human figures and face. Some of my ideas were a celluclay sculpture, human like masks, wire figures and mixed medium 3D drawings.

## **Semester 2: Objects**

For semester 2 I would like to focus on recreating everyday objects. Some of my ideas are making shoes or hats out of clay, a Dr. Seuss inspired building, or making different household items like a mugs, cookie jars, pitchers.
